Subject: RE: Telephone House Site clearance name list for working hour extension

To:
Equation Technology & Cabling Pte Ltd
51, Bukit Batok Crescent, #08-47. Unity Centre.
Singapore 658077

The purpose of this mail is to express my appreciation to an employee of Equation Technology & Cabling Pte Ltd.

Ismat Hayat Habi Julla (FIN: F8453714N, Passport No: O 0397552)

for his excellent job of handling cabling works in our Telephone House infrastructure preparation project during January ~ March 2007.

Ismat had shown his great ability in taking instructions and communicating with various parties and vendors involved in the project. I was surprised by his adaptability and work commitment. The work experience he has gained and expert skill level he practices was a key reason to complete the cabling works in timely manner even with the tight schedule.

I am pleased to mention his post-project follow up and closure activities with documentation. Very rare employees like Ismat have this completeness in their works. I wish him all success in his career and continue the contribution with your company.

With best regards,
Ellias Ahsan Husain
